NOTES TO USERS

This map is to be used as a basis for determining Flood Insurance Rates for use in the Federal Insurance - Flood Insurance Rate Program (FIRM). It is intended to provide a base map on which specific data regarding the flood hazard potential and the Federal Flood Plain can be superimposed, for the purpose of determining flood risk and flood hazard potential in accordance with the National Flood Insurance Program of the Federal Insurance - Flood Insurance Rate Program (FIRM). The map consists of a base map showing the flood plain, the flood hazard potential, and the flood insurance rate zones, as determined by the Federal Insurance - Flood Insurance Rate Program (FIRM). The map is to be used to determine the flood insurance rates for a property located on the map, and to determine the flood hazard potential in the area.
