

Before leaving home, assess your personal risk and the risk of what you'll be doing.

Your risk and the risk of those close to you
The older you are, the higher your risk of severe disease. Those with underlying medical conditions are also at higher risk.

The risk of who you are about to see
Take the most precautions around people who are older or have underlying medical conditions.

How much COVID-19 is in the community?
Are cases decreasing, stable, or increasing?

Do the **SAFEST** whenever you can

SAFE

SAFEST

Only wearing face covering when within 6 feet of other people

Face Coverings

Wear a face covering when you are out of your home

If within 6 feet, limit to as few people and for as little time as possible

Social Distancing

Keep at least 6 feet distance in public

If sharing anything disinfect items and hands between use

Shared Objects

Do not share items, including food

If indoors, limit to fewest people, shortest time, keep 6 feet distance and wear a mask

Location

Meet outdoors or utilize virtual meeting tools
