**NEWS BRIEF: Maxwell Road Closed Between Four Mile Road and Holloway Road.**

Effective immediately, the Colusa County Department of Public Works has announced the closure of a significant portion of Maxwell Road between Four Mile Road and Holloway Road. The emergency closure is in response to recent culvert failure requiring immediate repair.

“We recognize that this is a significant arterial road closure, and appreciate patience and understanding as we work to address the damage,” stated Michael J. Azevedo, Director of Public Works. “We are in the process of onboarding a Contractor as the scope of the repair is beyond the technical capacity and equipment capabilities of the Department of Public Works. Rest assured, we will be working diligently to repair the road as quickly and safely as possible.”

Maxwell Road serves as the primary connector between Interstate 5 and State Route 45. Drivers are urged to plan ahead to avoid this closure in their transit activities.

The closure will be in effect for a minimum of 10 business days.
