## INDEPENDENT AUDITOR'S REPORT

Board of Commissioners Colusa County Local Transportation Commission Colusa, California

We have audited the accompanying financial statements of the governmental activities and each major fund of the Colusa County Local Transportation Commission, California (Commission), as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Commission's primary government as listed in the table of contents. These financial statements are the responsibility of the Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptrotler General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The financial statements referred to above include only the primary government of the Commission, which consists of all funds, that comprise the Commission's legal entity. The financial statements do not include financial data for the Commission's legally separate component units, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the Commission's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of the Commission as of June 30, 2010, and the changes in its financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund for the primary government of the Commission as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated February 22, 2011, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, aithough not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Commissioners Colusa County Local Transportation Commission Colusa, California

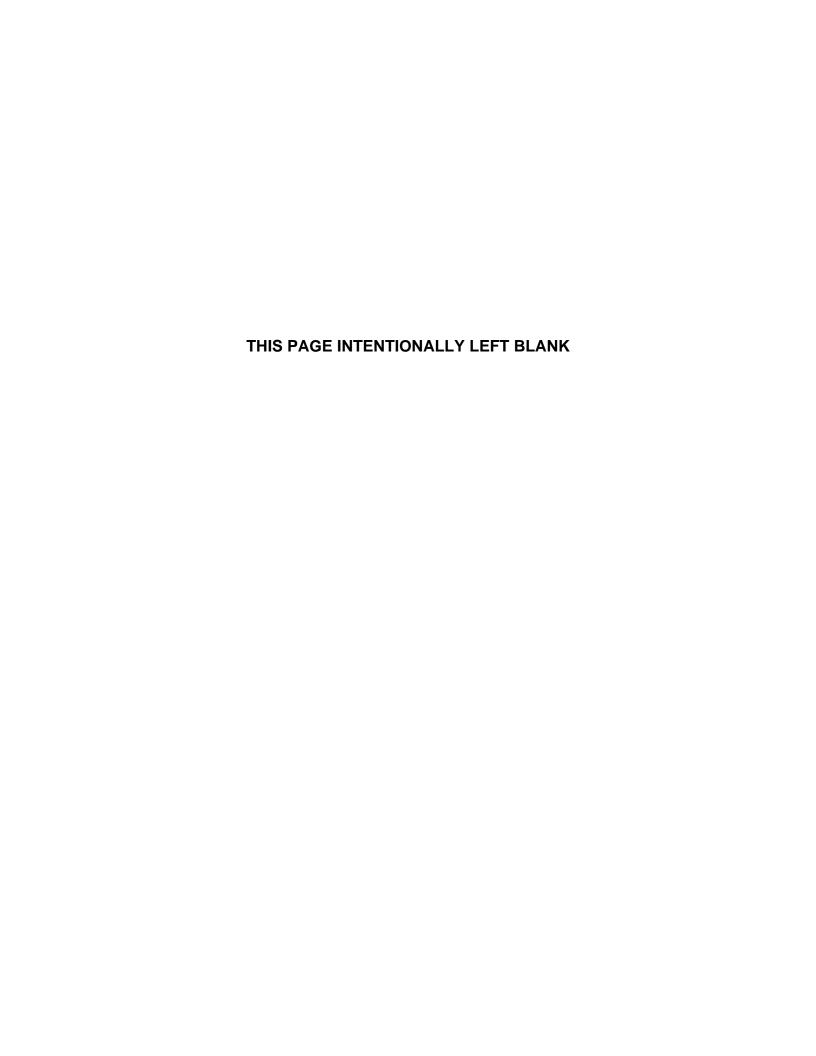

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's primary government's financial statements as a whole. The Introductory Section and Schedules of Allocations and Expenditures are presented for purposes of additional analysis and are not a required part of the financial statements. The Schedule of Allocations and Expenditures are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The Introductory Section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES - GOVERNMENTAL ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2010

Net Change in Fund Balances - Total Governmental Funds	\$ 329,370
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Expenditures for capital outlay	26,279
Depreciation expense	(9,770)
Some revenues reported in the statement of activities will not be collected for several months after	
the Commission's year end and do not provide current financial resources and therefore are not	
reported as revenue in the governmental funds.	
Change in accounts receivable	(56,115)
Change in taxes receivable	(73,200)
Change in deferred revenue	 74,392
Change in Net Assets of Governmental Activities	\$ 290,956

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## **A. Reporting Entity**

The Colusa County Local Transportation Commission (Commission), the regional transportation planning agency for the County of Colusa, was established in 1973 pursuant to the Transportation Development Act of 1971. The Commission is responsible for transportation planning activities as well as administration of the Local Transportation Fund and State Transit Assistance Fund.

The Commission receives monies and allocates these monies for the planning, management, and operation of public transportation systems within the County of Colusa. The Commission also has the authority to allocate monies for other transportation related activities including street and road projects.

The accounting methods and procedures adopted by the Commission conform to generally accepted accounting principles as applied to governmental entities. These financial statements present the government and its component units, entities for which the government is considered to be financially accountable under the criteria set by Governmental Accounting Standards Board (GASB) Statement No. 14.

The governmental reporting entity consists of the Commission (Primary Government) and its component units. Component units are legally separate organizations for which the Commission is financially accountable or other organizations whose component units nature and significant relationship with the Commission are such that exclusion would cause the Commission's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (I) either the Commission's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the Commission.

Reporting for component units on the Commission's financial statements can be blended or discretely presented. Blended component units are, although legally separate entities, in substance part of the Commission's operations and, therefore, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

For financial reporting purposes, the Commission's basic financial statements include only the financial activities of the primary government. The financial statements do not include financial data for the Colusa County Transit Agency, the Commission's legally separate component unit. The financial statements of the individual component unit may be obtained by writing to the Colusa County Local Transportation Commission, 1215 Market Street, Colusa, CA 95932.

## **B. Basis of Presentation**

### **Government-Wide Financial Statements**

The statement of net assets and statement of activities display information about the Commission. These statements include the financial activities of the Commission. Eliminations have been made to minimize the double counting of internal activities. These statements report the governmental activities of the Commission, which are normally supported by taxes and inter-governmental revenues. The Commission had no business-type activities at June 30, 2010.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods and services offered by the program, 2) operating grants and contributions and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are presented instead as general revenues.

NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## B. Basis of Presentation (Continued)

## **Fund Financial Statements**

Fund financial statements of the Commission are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. The funds of the Commission are organized into the governmental category. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Commission or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The Commission reports the following major governmental funds:

- The Local Transportation Planning fund is a special revenue fund used to account for monies expended in relation to the overall work program.
- The Local Transportation fund is a special revenue fund used to account for local transportation activities.
- The State Transit Assistance fund is a special revenue fund used to account for the receipt and expenditure of State Transit Assistance funds.

## C. Basis of Accounting and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include sales tax, grants, entitlements, and donations. On an accrual basis, revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The Commission considers revenues reported in the governmental funds to be available if they are collected within thirty days after the end of the current fiscal year. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. Governmental capital assets acquisitions are reported as expenditures in the governmental funds. Proceeds of governmental long-term debt and acquisitions under capital leases are reported as other financing sources.

## **D. Cash and Investments**

The Commission pools its cash and investments with the County of Colusa. The Colusa County Treasury is an external investment pool for the Commission and the Commission is considered an involuntary participant. The Treasurer invests on behalf of most funds of the County and external participants in accordance with the California State Government Code and the County's investment policy. State statutes authorize the Commission and County to invest its cash surplus in obligations of the U.S. Treasury, agencies and instrumentalities, corporate bonds, medium term notes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund.

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Cash and Investments (Continued)

Participant's equity in the investment pool is determined by the dollar amount of participants deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on the amortized cost basis. Amortized premiums and accreted discounts, accrued interest, and realized gains and losses, net of expenses, are apportioned to pool participants each quarter based on the participant's average daily cash balance at quarter end in relation to the total pool investments. This method differs from the fair value method used to value investments in these financial statements. In these financial statements, the fair value of the Commissions's investments in the pool was based on unaudited quoted market values as provided by the County Treasurer. The pool has not provided or obtained any legally binding guarantees during the period to support the value of investments.

The Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the Board of Supervisors every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value.

Required disclosure information regarding categorization of investments and other deposit and investment risk disclosures can be found in the County's financial statements. The County of Colusa's financial statements may be obtained by contacting the County of Colusa Auditor-Controller's office at 546 Jay Street, Colusa, CA 95932.

## E. Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include taxes, grants, and interest. Receivables recorded in the financial statements are not net of any allowance for doubtful accounts. Any doubtful accounts at June 30, 2010, were not considered material, and therefore, were not recorded.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as taxes, grants, interest, and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis.

## F. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. These services provide information on the net cost of each governmental function and therefore are not eliminated in the process of preparing the government-wide statement of activities.

Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are treated as an adjustment to expenditures or expenses; that is, a corresponding increase in expenditures or expenses in the reimbursing fund and a corresponding decrease in expenditures or expenses in the reimbursed fund.

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

See Note 3 for details of interfund transactions, including receivables and payables at year end.

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## G. Inventory

Governmental fund inventories are recorded as expenditures at the time inventory is purchased. Records are not maintained of inventory and supplies on hand, although these amounts are not considered material.

## H. Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

## **Government-Wide Financial Statements**

In the government-wide financial statements, property, plant, and equipment are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable. Contributed capital assets are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>
Equipment

<u>Estimated Lives</u>
3-25 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

### **Fund Financial Statements**

In the governmental fund financial statements, capital assets are accounted for as capital outlay expenditures of the fund at the time of acquisition.

## I. Deferred Revenue

Deferred revenue is recorded under the modified accrual basis of accounting when revenue which has been earned during the current period has met the measurable criteria but has not met the available criteria.

See Note 3 for details of deferred revenues at year end.

## J. Long-term Debt

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide financial statements. At June 30, 2010, the Commission had no outstanding long-term debt.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures.

## K. Compensated Absences and Post-Employment Benefits

The Commission does not have employees and consequently does not provide compensated absences or postemployment benefits.

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## L. Net Assets

The government-wide financial statements utilize a net asset presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net
  of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other
  borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

When both restricted and unrestricted net assets are available, unrestricted resources are depleted first before the restricted resources are used.

## M. Fund Balance

In the governmental fund financial statements, reserves and designations segregate portions of fund balance. Reservations of fund balance are for amounts that are not available or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance are established by action of management and represent tentative plans that are subject to change.

As of June 30, 2010, reservations of fund balance included:

Reserved for unallocated apportionments - to reflect Local Transportation funds the Commission has allocated but not apportioned to various entities.

## N. Revenue

In the government-wide financial statements, revenues are classified by program and general sources.

In the fund financial statements revenues are classified by source.

## O. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function.

In the fund financial statements, expenditures are classified as follows:

Government Funds – By Character Current (further classified by function) Debt Service Capital Outlay

## P. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## Q. Comparative Data

Summaries of comparative data for the prior year fund financial statements have been presented to provide an understanding of changes in the Commission's financial position and operations.

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

## A. Implementation of Governmental Accounting Standards Board Statements

### **GASB Statement No. 51**

GASB has issued Statement No. 51, Accounting and Financial Reporting for Intangible Assets. The objective of this Statement is to establish accounting and financial reporting requirements for intangible assets to reduce prior inconsistencies in accounting for these assets. This statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. The Commission has evaluated the requirements of GASB 51 and has determined that it does not hold any intangible assets which would require restatement in the financial statements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2009.

### **NOTE 3: DETAILED NOTES**

## A. Cash and Investments

As of June 30, 2010, the Commission's cash and investments consisted of the following:

Investments:
Colusa County Treasurer's pool
Total Cash and Investments

\$ 1,190,41<u>2</u>

1,190,412

### Cash

Custodial Credit Risk for Deposits - Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the Commission will not be able to recover its deposits or collateral securities that are in the possession of an outside party. Government Code requires that deposits in excess of \$250,000 must be collateralized at 105 percent to 150 percent of the value of the deposit to guarantee the safety of the public funds. The Commission does not have a formal investment policy that further limits its deposits.

At year end, the Commission had no bank deposits outside the County Treasury.

## Investments

Interest Rate Risk - Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. All investments of the Commission are pooled with the County of Colusa. The Commission does not have a formal investment policy that further limits investment maturities as a means of managing its exposure to fair value losses.

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law and County investment policy limit investments in commercial paper to the rating of A1 or better by Standards & Poor's or P-1 or better by Moody's Investors Service; and corporate bonds to the rating of A or better by both Standards & Poor's and Moody's Investors Service. No limits are placed on U.S. government agency securities and U.S. Treasuries. The Commission does not have a formal investment policy that would further limit its investment choices.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the Commission will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The Commission does not have a formal investment policy that would limit the exposure to custodial credit risk.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the Commission's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The Commission has invested all cash in the County investment pool which contains a diversification of investments.

## NOTES TO BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

## NOTE 3: DETAILED NOTES (CONTINUED)

## **B. Capital Assets**

Capital assets activity for the year ended June 30, 2010, was as follows:

	-	Balance July 1, 2009		dditions/ ustments	 ements/ stments_	_	Balance e 30, 2010
Capital Assets, Being Depreciated: Equipment	\$	50,750	\$	26,279	\$ <u>-</u>	\$	77,029
Total Capital Assets, Being Depreciated		50,750		26,279	 <u> </u>		77,029
Less Accumulated Depreciation for: Equipment	(	31,329)	(	9,770)	 <u>-</u>	(	41,099)
Total Accumulated Depreciation	(	31,329)	(	9,770)	 	(	41,099)
Total Capital Assets, Net	\$	19,421	\$	16,509	\$ <u> </u>	\$	35,930

## Depreciation

Depreciation expense was charged to governmental functions as follows:

Transportation	\$ 9,770
Total Depreciation Expense - Governmental Functions	\$ 9,770

## C. Deferred Revenue

At June 30, 2010, the Commission recorded deferred revenue of \$74,392 in the Local Transportation Planning fund for the fourth quarter rural planning assistance receivable not meeting the available criteria at June 30, 2010.

## **D. Interfund Transactions**

## **Due To/From Other Funds**

Operating receivables and payables between funds are classified as due from or due to other funds. In addition, when funds overdraw their share of pooled cash, the receivables and payables are also classified as due from or due to other funds. The following are due from and due to balances as of June 30, 2010:

Local Transportation State Transit Assistance	Due From <u>Other Funds</u>	Due To Other Funds
	\$ 7 	\$ - 7
Total	\$ 7	\$ 7

## **NOTE 4: RISK MANAGEMENT**

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission is covered under the County of Colusa's risk management programs.

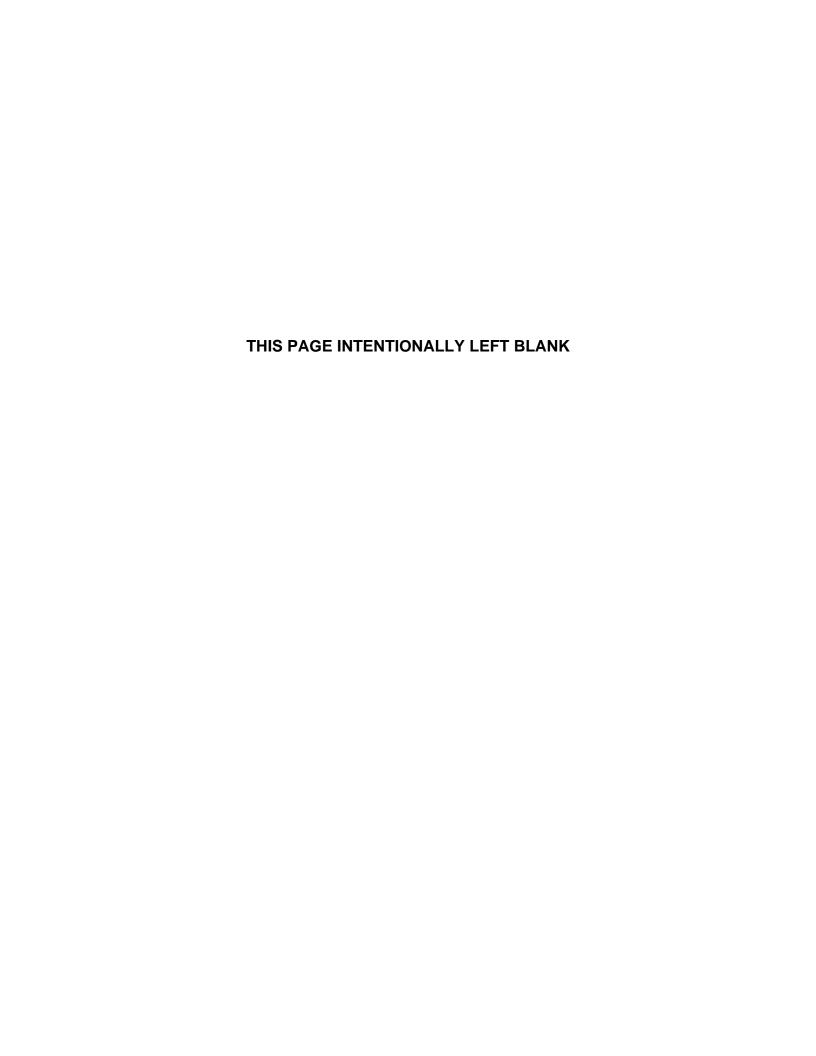

## **NOTE 5: RELATED PARTY TRANSACTIONS**

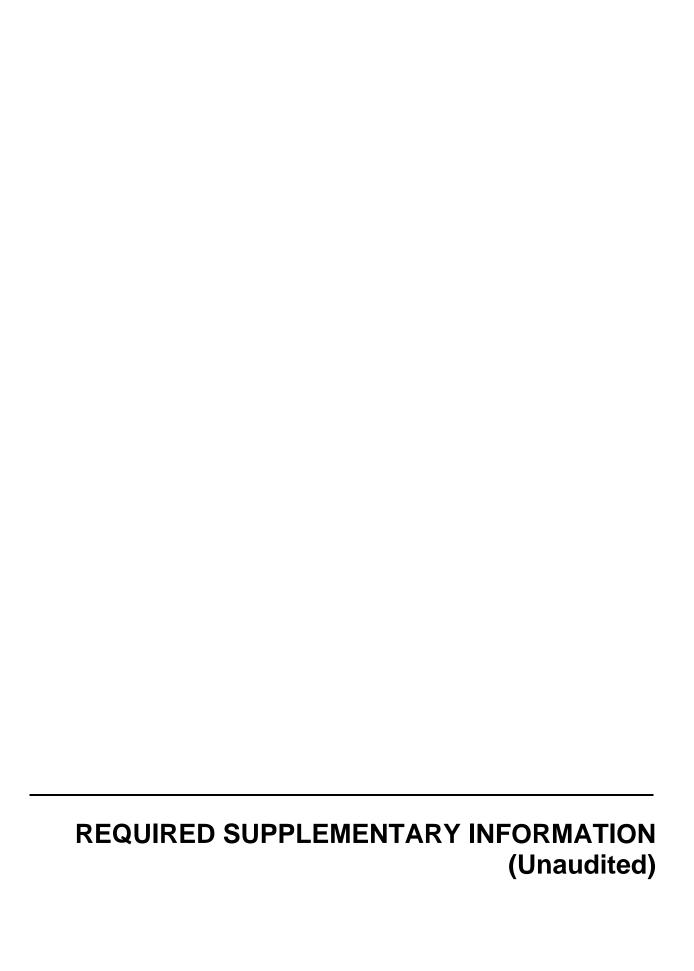

The Commission has an agreement with the County of Colusa to manage its operations. The County also provides engineering and construction services to the Commission upon request.

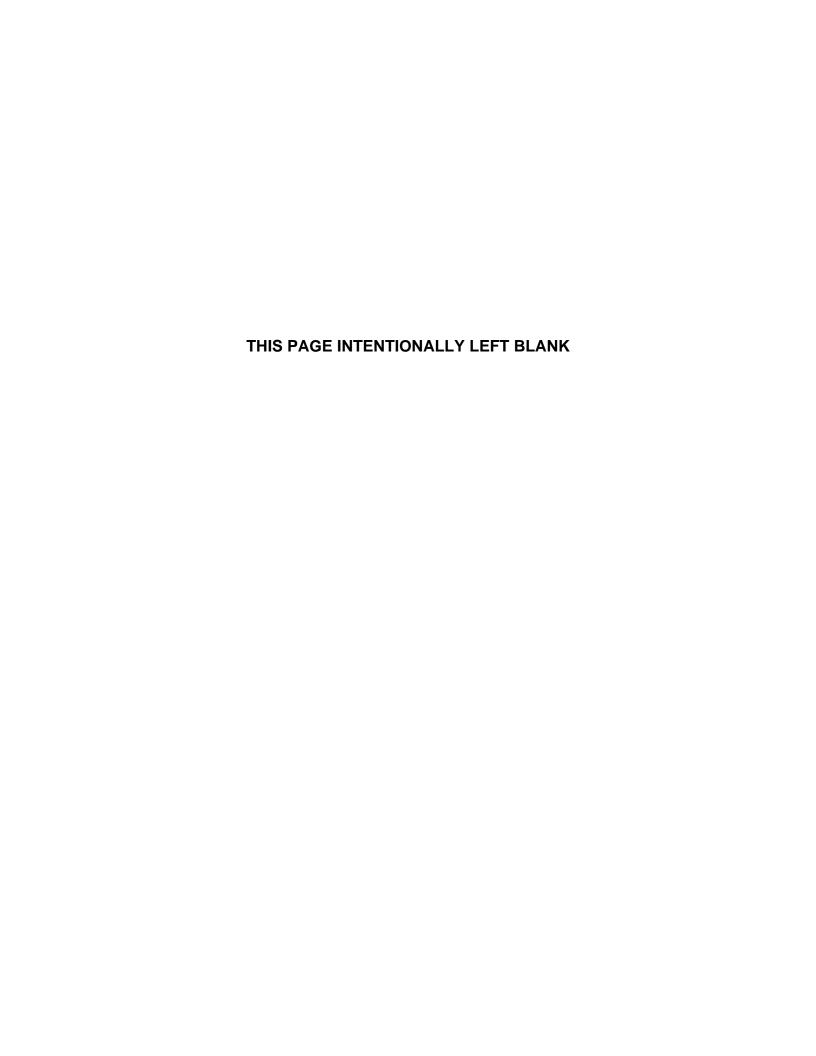

## **NOTE 6: OTHER INFORMATION**

## A. Subsequent Event

Management has evaluated events subsequent to June 30, 2010 through February 22, 2011, the date on which the financial statements were available for issuance. Management has determined no subsequent events requiring disclosure have occurred.

## REQUIRED SUPPLEMENTARY INFORMATION NOTE TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2010

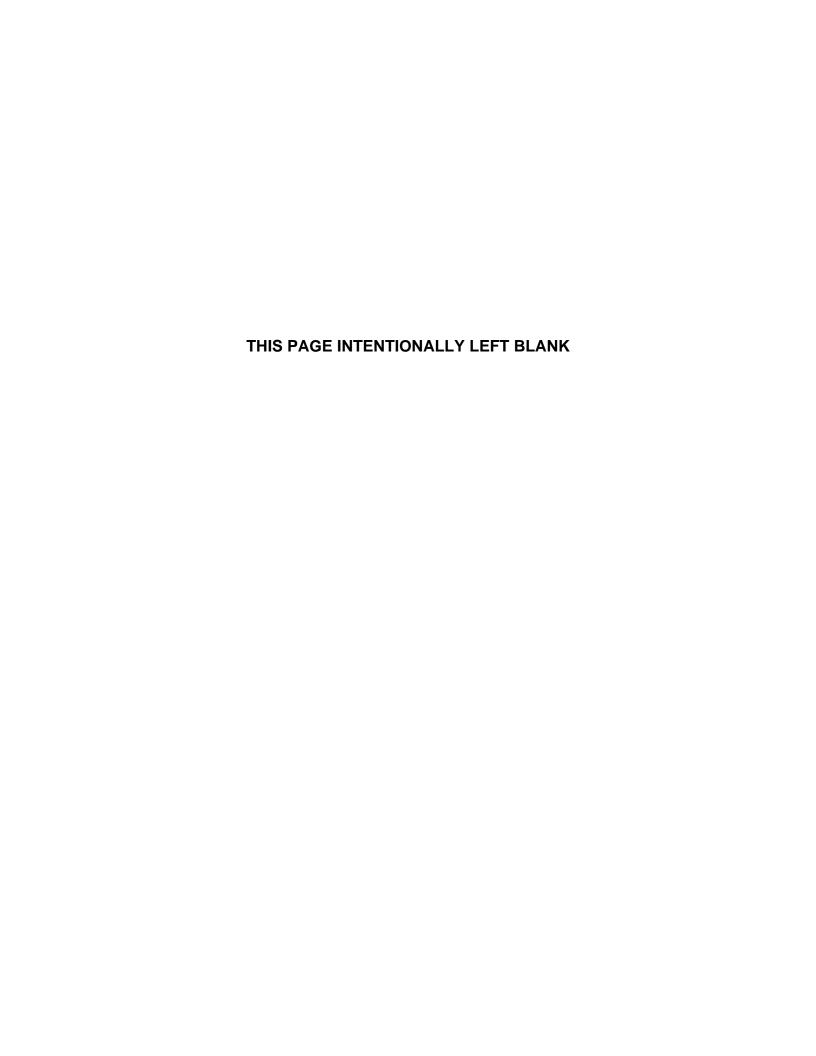

## **BUDGETARY BASIS OF ACCOUNTING**

The Commission follows these procedures annually in establishing the budgetary data reflected in the financial statements:

- 1. The Director of Public Works submits to the Board of Commissioners a proposed draft budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- 2. The Board of Commissioners reviews the proposed budget at regularly scheduled meetings, which are open to the public.
- 3. Prior to July 1, the budget is adopted through Board order.
- 4. The Board of Commissioners may amend the budget by motion during the fiscal year.

Formal budgetary integration is employed as a management control device during the year. The Commission presents a comparison of annual budgets to actual results for all governmental funds. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

## **SMITH & NEWELL**

CERTIFIED PUBLIC ACCOUNTANTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS AND THE RULES AND REGULATIONS OF THE TRANSPORTATION DEVELOPMENT ACT

Board of Commissioners Colusa County Local Transportation Commission Colusa, California

We have audited the financial statements of the governmental activities and each major fund of the Colusa County Local Transportation Commission (Commission), as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Commission's primary government and have issued our report thereon dated February 22, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and the applicable fiscal audit requirements of the Transportation Development Act including Public Utilities Code Section 99245 and the California Code of Regulations Section 6664.

## Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's primary government's financial statements are free of material misstatement, we performed tests of the Commission's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Additionally, we performed tests to determine that allocations made and expenditures paid by the Commission were made in accordance with the allocation instructions and resolutions of the Commission and in conformance with the California Transportation Development Act. Specifically, we performed each of the specific tasks identified in the California Code of Regulations Section 6666 that are applicable to the Commission and tests to determine that certain state funds were received and expended in accordance with applicable bond act and state accounting requirements. However, our objective was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported.

Colusa County Local Transportation Commission County of Colusa Colusa, California

This report is intended solely for the information and use of management, the Board of Commissioners, others within the organization, and the State Controller's Office and is not intended and should not be used by anyone other than these specified parties.

Smith & Newell, CPA's Yuba City, California February 22, 2011
