

**ARBUCKLE-COLLEGE CITY FIRE
PROTECTION DISTRICT
ARGUMENT IN FAVOR OF MEASURE D**

Nearly all of us, at some point, will experience an emergency that requires assistance. Whether it be a fire, medical emergency, automobile accident, rescue or other type of emergency, we know that the Arbuckle-College City Fire Protection District will come to our aid. Now the Arbuckle-College City Fire Protection District needs your assistance.

For the safety and well-being of the community, the Arbuckle-College City Fire Protection District has an urgent need for revenue to fund its operational needs and ensure that the community continues to receive adequate fire protection and prompt emergency response. The Fire District has avoided asking the community to pay a tax or assessment until it had exhausted all other revenue resources. The Fire District receives a limited amount of tax revenue, has taken advantage of grants available, imposes impact fees on new development, has formed taxing districts for new development to pay their share of operational costs, and is actively seeking a share of sales tax revenue, but it's not enough.

A YES vote on Measure D will provide enough revenue to sustain the Arbuckle-College City Fire Protection District's current operational funding needs, while providing security for the community's future operational needs. A YES vote on Measure D will help the Fire District maintain excellent fire protection services for the community. Measure D includes strict accountability provisions to ensure that all funds will only be used locally.

For \$79.19 a year, the community can give back to the Arbuckle-College City Fire Protection District and allow them to continue their superior service for today and years to come.

Join us in taking this necessary step to ensure our community's quality of life. Vote YES on Measure D.
